CITIZENS PRESENT

Brian Winterringer

III. Approval of June 27, 2017 Minutes

Discussion:

Motion was made by **Rider**, seconded by **Dolin** to approve the June 27, 2017 minutes.
Motion **carried**

Roll Call: Aye: Peltier, Dolin, Rider, Roberts
 Nay: none

IV. CONSIDERATION OF REQUEST

- A. Consideration of request by Staff, to add flexible delineator devices along the centerline of Highland west of Harrison. (Deferred from June 27, 2017 Traffic Commission meeting)

Discussion:

Brian Winterringer spoke regarding the traffic on Highland in front of Sonic. Mr. Winterringer passed out the Daily Ticket Report from Sonic on Harrison/Highland. He stated as it shows the first week or so the ticket sales were high and could have caused a traffic problem in this location. Since the opening traffic and sales have fallen. He stated he has watched traffic during breakfast and lunch and does not see the backup issue. The cars noted waiting was two at a time. He believes the customers have learned the best way in and out of the entrances. Mr. Winterringer stated he does not believe these delineators need to be placed and that he believes the traffic will straighten out on its own and slow even more during the winter. Roberts questioned if the design of the entrances might have been changed in the planning process if they had known the delineators would be placed. Mr. Winterringer stated that he believed they would have. He stated he did not know what they would have done but they would have looked at alternatives. There have been no accidents in the area since the opening of the Sonic. Roberts stated there are several other locations around town that have the same issue and do not warrant placement of the delineators. Peltier and Rider agreed with Roberts that this is not the only area in town that has the traffic flow going into a business like the one at Harrison and Highland at Sonic and would not want to place the delineators all around town.

Motion was made by **Dolin**, seconded by **Rider** to **deny** the request to add flexible delineator devices along the centerline of Highland west of Harrison.

Motion **carried**

Roll Call: Aye: Peltier, Dolin, Rider, Roberts
Nay: none

V. Swear in of Travis Flood

VI. ADMINISTRATIVE REPORTS

Michael Ludi gave an update on the Centracs project. He stated they had been working on installation of software. This will be an ongoing process and he will keep updating progress as its made. The completion of the project is expected to take over a year.

VII. CITIZEN PARTICIPATION

none

VIII. BOARD MEMBERS COMMENTS

none

IX. ADJOURNMENT

There being no further business to come before the Transportation Commission, a motion was made by **Rider**, seconded by **Dolin** recommending the meeting be adjourned. Motion **carried**

Roll Call: Aye: Peltier, Dolin, Rider, Roberts, Flood
Nay: none

Respectfully submitted,

Dani Turner, Secretary

Jack Barrett, Chairman
