

AGENDA
SHAWNEE MUNICIPAL AUTHORITY
MARCH 20, 2023 AT 6:00 PM
COMMISSION CHAMBERS AT CITY HALL
16 WEST 9TH STREET
SHAWNEE, OKLAHOMA

Official action can only be taken on items which appear on the agenda. The public body may adopt, approve, ratify, deny, defer, recommend, amend, strike, or continue any agenda item. When more information is needed to act on an item, the public body may refer the matter to Staff or back to Committee or the recommending body. Under certain circumstances, items are deferred to a future date or stricken from the agenda entirely.

CALL TO ORDER

DECLARATION OF QUORUM

1. Consider approval of Consent Agenda:
 - a. Minutes from the February 21, 2023 regular meeting.
2. Confirm action taken by the City Commission on Agenda Item No. 4 that an emergency exists pursuant to 61 O.S. § 130 and authorization for an emergency repair of the wastewater main on Chicago Street, between Broadway Avenue and Bell Avenue, in an amount not to exceed \$72,400.00.
3. Confirm action taken by the City Commission on Agenda Item No. 7 with respect to a resolution updating the City Fee Schedule by: (1) setting the water rates for residential and commercial use, both inside and outside the city limits, pursuant to Subsections (a) and (b), Section 26-26, Article II, Chapter 26 of the City Code; and (2) setting the sanitary sewer rates for residential and commercial use, both inside and outside the city limits, pursuant to Subsections (b) and (c), Section 26-27, Article II, Chapter 26 of the Code of the City of Shawnee; and amend residential deposit rates in Section 26-132(a), Article III, Division 2, Subdivision II of Chapter 26 of the City Code.
4. Confirm action taken by the City Commission on Agenda Item No. 8 with respect to a resolution updating the City Fee Schedule by setting the monthly rates and fees for solid waste services pursuant to Subsections (a), Section 23-38, Article II, Chapter 23 of the City Code.

5. Consideration of a Sponsorship Agreement between the Shawnee Municipal Authority and the Pottawatomie County Development Authority (PCDA).
6. New Business
7. Adjournment

Respectfully submitted,

Lisa Lasyone, CMC, City Clerk

The City of Shawnee encourages participation from its citizens in public meetings. If participation is not possible due to a disability, notify the City Clerk, in writing, at least forty-eight hours prior to the scheduled meeting, and necessary accommodations will be made. (ADA 28 CFR 36)

DRAFT

SHAWNEE MUNICIPAL AUTHORITY PROCEEDINGS

FEBRUARY 21, 2023 AT 6:00 PM

The Shawnee Municipal Authority of the City of Shawnee, County of Pottawatomie, State of Oklahoma, met in Regular Session in the Commission Chambers at City Hall, 16 West 9th Street, Shawnee, Oklahoma on, Tuesday, February 21, 2023 at 6:00 PM, pursuant to notice duly posted as prescribed by law at 6:53 p.m. on Thursday, February 16, 2023. Chairman Bolt presided and called the meeting to order. Upon roll call, the following members were in attendance.

Ed Bolt
Chairman

Daniel Matthews
Trustee Ward 1

Cami Engles
Trustee Ward 2

Travis Flood
Trustee Ward 3

Darren Rutherford
Trustee Ward 4

Mark Sehorn
Trustee Ward 5

Lauren Richter
Trustee Ward 6

ABSENT: None

CALL TO ORDER

DECLARATION OF QUORUM

1. Consider approval of Consent Agenda:

- a. Minutes from the January 17, 2023 regular meeting.

A motion was made by Trustee Matthews, seconded by Trustee Engles, to approve Consent Agenda Item No. 1(a). Motion carried 7-0.

AYE: Matthews, Engles, Flood, Bolt, Sehorn, Richter, Rutherford

NAY: None

2. Consider and take action with respect to a resolution of the Shawnee Municipal Authority (the "Authority") authorizing the modification of the security with respect to certain outstanding indebtedness of the Authority, specifically adding one-half of one percent (0.50%) of sales tax revenue to the security pledge;

approving and authorizing the execution of any and all necessary documents, including but not limited to a sales tax agreement, an amended parity agreement, an amendment to general bond indenture, and an amendment to loan agreements and amended security agreement; and containing other provisions relating thereto.

Assistant City Manager Jacob Foos advised that this is a companion item to City Commission Agenda Item No. 15.

A motion was made by Commissioner Sehorn, seconded by Commissioner Matthews, to approve a resolution of the Shawnee Municipal Authority (the "Authority") authorizing the modification of the security with respect to certain outstanding indebtedness of the Authority, specifically adding one-half of one percent (0.50%) of sales tax revenue to the security pledge; approving and authorizing the execution of any and all necessary documents, including but not limited to a sales tax agreement, an amended parity agreement, an amendment to general bond indenture, and an amendment to loan agreements and amended security agreement; and containing other provisions relating thereto.

Resolution No. SMA-2023-1 was introduced.

A RESOLUTION OF THE SHAWNEE MUNICIPAL AUTHORITY (THE "AUTHORITY") AUTHORIZING THE MODIFICATION OF THE SECURITY WITH RESPECT TO CERTAIN OUTSTANDING INDEBTEDNESS OF THE AUTHORITY, SPECIFICALLY ADDING ONE-HALF OF ONE PERCENT (0.50%) OF SALES TAX REVENUE TO THE SECURITY PLEDGE; APPROVING AND AUTHORIZING THE EXECUTION OF ANY AND ALL NECESSARY DOCUMENTS, INCLUDING BUT NOT LIMITED TO A SALES TAX AGREEMENT, AN AMENDED PARITY AGREEMENT, AN AMENDMENT TO GENERAL BOND INDENTURE, AND AN AMENDMENT TO LOAN AGREEMENTS AND AMENDED SECURITY AGREEMENT; AND CONTAINING OTHER PROVISIONS RELATING THERETO.

Motion carried 7-0.

AYE: Sehorn, Matthews, Engles, Flood, Bolt, Rutherford, Richter

NAY: None

3. New Business

There was no New Business.

4. Adjournment

There being no further business to be considered, the meeting was adjourned by power of the Chair. (9:15 p.m.)

ED BOLT, CHAIRMAN

ATTEST:

LISA LASYONE, CMC
SECRETARY

Public Works Department

Date: March 20, 2023
To: Shawnee Municipal Authority
From: Brad Schmidt, Public Works Director
Subject: Confirm action taken by the City Commission on Agenda Item No. 4 that an emergency exists pursuant to 61 O.S. § 130 and authorization for an emergency repair of the wastewater main on Chicago Street, between Broadway Avenue and Bell Avenue, in an amount not to exceed \$72,400.00.

Background: Staff has discovered a collapsed wastewater main on Chicago Street between Broadway Avenue and Bell Avenue.

Due to the severity, location, potential of property damage, as well as extreme, dangerous sanitary sewer overflow possibilities, staff is requesting to forego the standard bidding procedures and complete repairs as soon as possible. Repairs will, at a minimum, include the following:

- Removal of approximately 365' of 8" clay piping
- Installation of approximately 365' of 8" HDPE SDR17
- 11 service connections
- 2 manhole rehabilitations
- CCTV
- Sod/seed as needed
- Spoil removal

Financial Impact: \$72,400, funded through Shawnee Municipal Authority, Sewer Collection, Capital Outlay-Equipment, 501-5-1070-54500

Attachments: E Chicago Pipe Burst, CCTV E. Chicago, Pipe Bursting Quotes

Staff Recommendation: Confirmation of City Commission Action

THANK YOU FOR YOUR BUSINESS!

City Clerk Department
16 W. 9th St.
Shawnee, OK 74801
ShawneeOK.org

Date: March 20, 2023
To: Shawnee Municipal Authority
From: Lisa Lasyone, City Clerk
Subject: Confirm action taken by the City Commission on Agenda Item No. 7 with respect to a resolution updating the City Fee Schedule by: (1) setting the water rates for residential and commercial use, both inside and outside the city limits, pursuant to Subsections (a) and (b), Section 26-26, Article II, Chapter 26 of the City Code; and (2) setting the sanitary sewer rates for residential and commercial use, both inside and outside the city limits, pursuant to Subsections (b) and (c), Section 26-27, Article II, Chapter 26 of the Code of the City of Shawnee; and amend residential deposit rates in Section 26-132(a), Article III, Division 2, Subdivision II of Chapter 26 of the City Code.

Background: By Resolution, the City may conduct an annual review of its water and sewer rates and consider adjustments per the Consumer Price Index (CPI) for both residential and commercial accounts. City staff reviewed the U.S. Bureau of Labor Statistics CPI for the following categories:

- Water & Sewer Maintenance: 4.5%
- Motor Fuel: -0.9%
- New Trucks: 6.0%
- Motor Vehicle Parts & Equipment: 9.9%
(including Tires: 8.7% and Motor Oil, Coolant, and Fluids: 19.1%)
- Motor Vehicle Maintenance & Repair: 13%

The overall CPI for January 1, 2022, through December 31, 2022 was 6.5%.

The "Water & Sewer Maintenance" specific CPI does not allow staff to keep up with the ancillary costs involved in maintaining the water and wastewater infrastructure. Due to the costs incurred for all items that support related maintenance activities, staff is requesting the consideration of a 6.5% increase for water and sewer rates, effective July 1, 2023.

For residential customers inside the City limits, the associated rate increase for water service would be:

- \$1.52 for the first 1,000 gallons
- \$0.29 for the subsequent 1,001 to 4,000 gallon usage

For residential customers inside the City limits, the associated rate increase for sewer service would be:

- \$0.99 for the first 1,000 gallons

- \$0.22 for any usage over 1,000 gallons

The minimum bill would increase from \$68.91 to approximately \$72.21.

Financial Impact: Estimated water revenue of \$509,600 to Shawnee Municipal Authority Fund, Water Sales, 501-45010; estimated sewer revenue of \$277,100 to Shawnee Municipal Authority Fund, Sewer Service, 501-45020

Attachments: Bureau of Labor Statistics CPI as of 12-2022, Water Rates Resolution 2023, Exhibit A - Chapter 26

Staff Recommendation: Approval of the item.

CONSUMER PRICE INDEX – DECEMBER 2022

The Consumer Price Index for All Urban Consumers (CPI-U) declined 0.1 percent in December on a seasonally adjusted basis, after increasing 0.1 percent in November, the U.S. Bureau of Labor Statistics reported today. Over the last 12 months, the all items index increased 6.5 percent before seasonal adjustment.

The index for gasoline was by far the largest contributor to the monthly all items decrease, more than offsetting increases in shelter indexes. The food index increased 0.3 percent over the month with the food at home index rising 0.2 percent. The energy index decreased 4.5 percent over the month as the gasoline index declined; other major energy component indexes increased over the month.

The index for all items less food and energy rose 0.3 percent in December, after rising 0.2 percent in November. Indexes which increased in December include the shelter, household furnishings and operations, motor vehicle insurance, recreation, and apparel indexes. The indexes for used cars and trucks, and airline fares were among those that decreased over the month.

The all items index increased 6.5 percent for the 12 months ending December; this was the smallest 12-month increase since the period ending October 2021. The all items less food and energy index rose 5.7 percent over the last 12 months. The energy index increased 7.3 percent for the 12 months ending December, and the food index increased 10.4 percent over the last year; all of these increases were smaller than for the 12-month period ending November.

¹ Not seasonally adjusted.

Food

The food index increased 0.3 percent in December following a 0.5-percent increase in November. The food at home index rose 0.2 percent in December. Three of the six major grocery store food group indexes increased over the month. The index for meats, poultry, fish, and eggs increased 1.0 percent in December, as the index for eggs rose 11.1 percent. The index for other food at home rose 0.4 percent over the month, while the index for nonalcoholic beverages increased 0.1 percent in December.

In contrast, the fruits and vegetables index fell 0.6 percent over the month with the fresh fruit index declining 1.9 percent. The index for dairy and related products decreased 0.3 percent in December, and the index for cereals and bakery products was unchanged.

The food away from home index rose 0.4 percent in December, after increasing 0.5 percent in November. The index for limited service meals increased 0.5 percent over the month and the index for full service meals increased 0.1 percent.

The food at home index rose 11.8 percent over the last 12 months. The index for cereals and bakery products rose 16.1 percent over the year. The remaining major grocery store food groups posted increases ranging from 7.7 percent (meats, poultry, fish, and eggs) to 15.3 percent (dairy and related products).

The index for food away from home rose 8.3 percent over the last year. The index for full service meals rose 8.2 percent over the last 12 months, and the index for limited service meals rose 6.6 percent over the same period.

Energy

The energy index fell 4.5 percent in December after falling 1.6 percent in November. The gasoline index declined 9.4 percent over the month, following a 2.0-percent decrease in November. (Before seasonal adjustment, gasoline prices fell 12.5 percent in December.) The index for natural gas rose over the month, increasing 3.0 percent after decreasing 3.5 percent in November. The electricity index increased 1.0 percent in December.

The energy index rose 7.3 percent over the past 12 months. The gasoline index decreased 1.5 percent over the span. The fuel oil index rose 41.5 percent over the last 12 months, the index for electricity rose 14.3 percent, and the index for natural gas increased 19.3 percent over the same period.

All items less food and energy

The index for all items less food and energy rose 0.3 percent in December, following a 0.2-percent increase in November. The shelter index continued to increase, rising 0.8 percent over the month. The rent index rose 0.8 percent over the month, and the owners' equivalent rent index also rose 0.8 percent. The index for lodging away from home increased 1.5 percent in December, after falling 0.7 percent in November.

The shelter index was the dominant factor in the monthly increase in the index for all items less food and energy, while other components were a mix of increases and declines. Among the other indexes that rose in December was the index for household furnishings and operations, which increased 0.3 percent over the month, while the index for motor vehicle insurance rose 0.6 percent, and the index for

recreation increased 0.2 percent. The apparel index rose 0.5 percent in December, and the education index increased 0.3 percent.

The medical care index rose 0.1 percent in December, after declining in the previous 2 months. The index for hospital services increased 1.7 percent over the month. The physicians' services index and the prescription drugs index both rose 0.1 percent in December.

Indexes which declined over the month include the index for used cars and trucks, which fell 2.5 percent in December, the sixth consecutive decline in that index. The index for airline fares fell 3.1 percent over the month, following a 3.0-percent decrease in November. The new vehicles index declined 0.1 percent in December, as did the personal care index.

The index for all items less food and energy rose 5.7 percent over the past 12 months. The shelter index increased 7.5 percent over the last year, accounting for more than half of the total increase in all items less food and energy. Other indexes with notable increases over the last year include household furnishings and operations (+6.7 percent), medical care (+4.0 percent), new vehicles (+5.9 percent), and recreation (+5.1 percent).

Not seasonally adjusted CPI measures

The Consumer Price Index for All Urban Consumers (CPI-U) increased 6.5 percent over the last 12 months to an index level of 296.797 (1982-84=100). For the month, the index decreased 0.3 percent prior to seasonal adjustment.

The Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W) increased 6.3 percent over the last 12 months to an index level of 291.051 (1982-84=100). For the month, the index decreased 0.5 percent prior to seasonal adjustment.

The Chained Consumer Price Index for All Urban Consumers (C-CPI-U) increased 6.4 percent over the last 12 months. For the month, the index decreased 0.2 percent on a not seasonally adjusted basis. Please note that the indexes for the past 10 to 12 months are subject to revision.

The Consumer Price Index for January 2023 is scheduled to be released on Tuesday, February 14, 2023, at 8:30 a.m. (ET).

January 2023 Consumer Price Index Weight Update

Starting with January 2023 data, BLS plans to update weights annually for the Consumer Price Index based on a single calendar year of data, using consumer expenditure data from 2021. This reflects a change from prior practice of updating weights biennially using two years of expenditure data.

Technical Note

Brief Explanation of the CPI

The Consumer Price Index (CPI) measures the change in prices paid by consumers for goods and services. The CPI reflects spending patterns for each of two population groups: all urban consumers and urban wage earners and clerical workers. The all urban consumer group represents about 93 percent of the total U.S. population. It is based on the expenditures of almost all residents of urban or metropolitan areas, including professionals, the self-employed, the poor, the unemployed, and retired people, as well as urban wage earners and clerical workers. Not included in the CPI are the spending patterns of people living in rural nonmetropolitan areas, farming families, people in the Armed Forces, and those in institutions, such as prisons and mental hospitals. Consumer inflation for all urban consumers is measured by two indexes, namely, the Consumer Price Index for All Urban Consumers (CPI-U) and the Chained Consumer Price Index for All Urban Consumers (C-CPI-U).

The Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W) is based on the expenditures of households included in the CPI-U definition that meet two requirements: more than one-half of the household's income must come from clerical or wage occupations, and at least one of the household's earners must have been employed for at least 37 weeks during the previous 12 months. The CPI-W population represents about 29 percent of the total U.S. population and is a subset of the CPI-U population.

The CPIs are based on prices of food, clothing, shelter, fuels, transportation, doctors' and dentists' services, drugs, and other goods and services that people buy for day-to-day living. Prices are collected each month in 75 urban areas across the country from about 6,000 housing units and approximately 22,000 retail establishments (department stores, supermarkets, hospitals, filling stations, and other types of stores and service establishments). All taxes directly associated with the purchase and use of items are included in the index. Prices of fuels and a few other items are obtained every month in all 75 locations. Prices of most other commodities and services are collected every month in the three largest geographic areas and every other month in other areas. Prices of most goods and services are obtained by personal visit, telephone call, or web collection by the Bureau's trained representatives.

In calculating the index, price changes for the various items in each location are aggregated using weights, which represent their importance in the spending of the appropriate population group. Local data are then combined to obtain a U.S. city average. For the CPI-U and CPI-W, separate indexes are also published by size of city, by region of the country, for cross-classifications of regions and population-size classes, and for 23 selected local areas. Area indexes do not measure differences in the level of prices among cities; they only measure the average change in prices for each area since the base period. For the C-CPI-U, data are issued only at the national level. The CPI-U and CPI-W are considered final when released, but the C-CPI-U is issued in preliminary form and subject to three subsequent quarterly revisions.

The index measures price change from a designed reference date. For most of the CPI-U and the CPI-W, the reference base is 1982-84 equals 100. The reference base for the C-CPI-U is December 1999 equals 100. An increase of 7 percent from the reference base, for example, is shown as 107.000. Alternatively, that relationship can also be expressed as the price of a base period market basket of goods and services rising from \$100 to \$107.

Sampling Error in the CPI

The CPI is a statistical estimate that is subject to sampling error because it is based upon a sample of retail prices and not the complete universe of all prices. BLS calculates and publishes estimates of the 1-

month, 2-month, 6-month, and 12-month percent change standard errors annually for the CPI-U. These standard error estimates can be used to construct confidence intervals for hypothesis testing. For example, the estimated standard error of the 1-month percent change is 0.03 percent for the U.S. all items CPI. This means that if we repeatedly sample from the universe of all retail prices using the same methodology, and estimate a percentage change for each sample, then 95 percent of these estimates will be within 0.06 percent of the 1-month percentage change based on all retail prices. For example, for a 1-month change of 0.2 percent in the all items CPI-U, we are 95 percent confident that the actual percent change based on all retail prices would fall between 0.14 and 0.26 percent. For the latest data, including information on how to use the estimates of standard error, see www.bls.gov/cpi/tables/variance-estimates/home.htm.

Calculating Index Changes

Movements of the indexes from 1 month to another are usually expressed as percent changes rather than changes in index points, because index point changes are affected by the level of the index in relation to its base period, while percent changes are not. The following table shows an example of using index values to calculate percent changes:

	Item A	Item B	Item C
Year I	112.500	225.000	110.000
Year II	121.500	243.000	128.000
Change in index points	9.000	18.000	18.000
Percent change	$9.0/112.500 \times 100 = 8.0$	$18.0/225.000 \times 100 = 8.0$	$18.0/110.000 \times 100 = 16.4$

Use of Seasonally Adjusted and Unadjusted Data

The Consumer Price Index (CPI) produces both unadjusted and seasonally adjusted data. Seasonally adjusted data are computed using seasonal factors derived by the X-13ARIMA-SEATS seasonal adjustment method. These factors are updated each February, and the new factors are used to revise the previous 5 years of seasonally adjusted data. The factors are available at www.bls.gov/cpi/tables/seasonal-adjustment/seasonal-factors-2022.xlsx. For more information on data revision scheduling, please see the Factsheet on Seasonal Adjustment at www.bls.gov/cpi/seasonal-adjustment/questions-and-answers.htm and the Timeline of Seasonal Adjustment Methodological Changes at www.bls.gov/cpi/seasonal-adjustment/timeline-seasonal-adjustment-methodology-changes.htm.

For analyzing short-term price trends in the economy, seasonally adjusted changes are usually preferred since they eliminate the effect of changes that normally occur at the same time and in about the same magnitude every year—such as price movements resulting from weather events, production cycles, model changeovers, holidays, and sales. This allows data users to focus on changes that are not typical for the time of year. The unadjusted data are of primary interest to consumers concerned about the prices they actually pay. Unadjusted data are also used extensively for escalation purposes. Many collective bargaining contract agreements and pension plans, for example, tie compensation changes to the Consumer Price Index before adjustment for seasonal variation. BLS advises against the use of seasonally adjusted data in escalation agreements because seasonally adjusted series are revised annually.

Intervention Analysis

The Bureau of Labor Statistics uses intervention analysis seasonal adjustment (IASA) for some CPI series. Sometimes extreme values or sharp movements can distort the underlying seasonal pattern of price change. Intervention analysis seasonal adjustment is a process by which the distortions caused by such unusual events are estimated and removed from the data prior to calculation of seasonal factors. The resulting seasonal factors, which more accurately represent the seasonal pattern, are then applied to the unadjusted data.

For example, this procedure was used for the motor fuel series to offset the effects of the 2009 return to normal pricing after the worldwide economic downturn in 2008. Retaining this outlier data during seasonal factor calculation would distort the computation of the seasonal portion of the time series data for motor fuel, so it was estimated and removed from the data prior to seasonal adjustment. Following that, seasonal factors were calculated based on this “prior adjusted” data. These seasonal factors represent a clearer picture of the seasonal pattern in the data. The last step is for motor fuel seasonal factors to be applied to the unadjusted data.

For the seasonal factors introduced for January 2022, BLS adjusted 72 series using intervention analysis seasonal adjustment, including selected food and beverage items, motor fuels, electricity, and vehicles.

Revision of Seasonally Adjusted Indexes

Seasonally adjusted data, including the U.S. city average all items index levels, are subject to revision for up to 5 years after their original release. Every year, economists in the CPI calculate new seasonal factors for seasonally adjusted series and apply them to the last 5 years of data. Seasonally adjusted indexes beyond the last 5 years of data are considered to be final and not subject to revision. For January 2022, revised seasonal factors and seasonally adjusted indexes for 2017 to 2021 were calculated and published. For series which are directly adjusted using the Census X-13ARIMA-SEATS seasonal adjustment software, the seasonal factors for 2021 will be applied to data for 2022 to produce the seasonally adjusted 2022 indexes. Series which are indirectly seasonally adjusted by summing seasonally adjusted component series have seasonal factors which are derived and are therefore not available in advance.

Determining Seasonal Status

Each year the seasonal status of every series is reevaluated based upon certain statistical criteria. Using these criteria, BLS economists determine whether a series should change its status from "not seasonally adjusted" to "seasonally adjusted", or vice versa. If any of the 81 components of the U.S. city average all items index change their seasonal adjustment status from seasonally adjusted to not seasonally adjusted, not seasonally adjusted data will be used in the aggregation of the dependent series for the last 5 years, but the seasonally adjusted indexes before that period will not be changed. For 2022, 22 of the 81 components of the U.S. city average all items index are seasonally adjusted.

Contact Information

For additional information about the CPI visit www.bls.gov/cpi or contact the CPI Information and Analysis Section at 202-691-7000 or cpi_info@bls.gov.

For additional information on seasonal adjustment in the CPI visit www.bls.gov/cpi/seasonal-adjustment/home.htm or contact the CPI seasonal adjustment section at 202-691-6968 or cpiseas@bls.gov.

¹ Foods, fuels, and several other items are priced every month in all areas. Most other goods and services are priced as indicated: M - Every month.

1 - January, March, May, July, September, and November. 2 - February, April, June, August, October, and December.

² Regions defined as the four Census regions.

³ Indexes on a December 1996=100 base.

⁴ Indexes on a December 2017=100 base.

⁵ Indexes on a December 1986=100 base.

⁶ 1998 - 2017 indexes based on substantially smaller sample.

⁷ Indexes on a December 2001=100 base.

⁸ Indexes on a 1987=100 base.

NOTE: Local area indexes are byproducts of the national CPI program. Each local index has a smaller sample size than the national index and is, therefore, subject to substantially more sampling and other measurement error. As a result, local area indexes show greater volatility than the national index, although their long-term trends are similar. Therefore, the Bureau of Labor Statistics strongly urges users to consider adopting the national average CPI for use in their escalator clauses.

¹ The C-CPI-U is designed to be a closer approximation to a cost-of-living index in that it, in its final form, accounts for any substitution that consumers make across item categories in response to changes in relative prices. Since the expenditure data required for the calculation of the C-CPI-U are available only with a time lag, the C-CPI-U is issued first in preliminary form using the latest available expenditure data at that time and is subject to four revisions.

Indexes are issued as initial estimates. Indexes are revised each quarter with the publication of January, April, July, and October data as updated expenditure estimates become available. The C-CPI-U indexes are updated quarterly until they become final. January-March indexes are final in January of the following year; April-June indexes are final in April of the following year; July-September indexes are final in July of the following year; October-December indexes are final in October of the following year.

¹ The 'effect' of an item category is a measure of that item's contribution to the All items price change. For example, if the Food index had an effect of 0.40, and the All items index rose 1.2 percent, then the increase in food prices contributed 0.40 / 1.2, or 33.3 percent, to that All items increase. Said another way, had food prices been unchanged for that month the change in the All items index would have been 1.2 percent minus 0.40, or 0.8 percent. Effects can be negative as well. For example, if the effect of food was a negative 0.1, and the All items index rose 0.5 percent, the All items index actually would have been 0.1 percent higher (or 0.6 percent) had food prices been unchanged. Since food prices fell while prices overall were rising, the contribution of food to the All items price change was negative (in this case, -0.1 / 0.5, or minus 20 percent).

² A statistic's margin of error is often expressed as its point estimate plus or minus two standard errors. For example, if a CPI category rose 0.6 percent, and its standard error was 0.15 percent, the margin of error on this item's 1-month percent change would be 0.6 percent, plus or minus 0.3 percent.

³ If the current seasonally adjusted 1-month percent change is greater than the previous published 1-month percent change, then this column identifies the closest prior month with a 1-month percent change as (L)arge as or (L)arger than the current 1-month change. If the current 1-month percent change is smaller than the previous published 1-month percent change, the most recent month with a change as (S)mall or (S)maller than the current month change is identified. If the current and previous published 1-month percent changes are equal, a dash will appear. Standard numerical comparisons are used. For example, 0.8% is greater than 0.6%, -0.4% is less than -0.2%, and -0.2% is less than 0.0%. Note that a (L)arger change can be a smaller decline, for example, a -0.2% change is larger than a -0.4% change, but still represents a decline in the price index. Likewise, (S)maller changes can be increases, for example, a 0.6% change is smaller than 0.8%, but still represents an increase in the price index. In this context, a -0.2% change is considered to be smaller than a 0.0% change.

⁴ Not seasonally adjusted.

⁵ Indexes on a December 1997=100 base.

⁶ Special indexes based on a substantially smaller sample. These series do not contribute to the all items index aggregation and therefore do not have a relative importance or effect.

- ⁷ Indexes on a December 2007=100 base.
- ⁸ Indexes on a December 2005=100 base.
- ⁹ Indexes on a December 1986=100 base.
- ¹⁰ Indexes on a December 1993=100 base.
- ¹¹ Indexes on a December 2009=100 base.
- ¹² Indexes on a December 1990=100 base.
- ¹³ Indexes on a December 1983=100 base.
- ¹⁴ Indexes on a December 2001=100 base.
- ¹⁵ Indexes on a December 2019=100 base.
- ¹⁶ Indexes on a December 1982=100 base.
- ¹⁷ Indexes on a December 1996=100 base.
- ¹⁸ Indexes on a December 1988=100 base.

¹ The 'effect' of an item category is a measure of that item's contribution to the All items price change. For example, if the Food index had an effect of 0.40, and the All items index rose 1.2 percent, then the increase in food prices contributed 0.40 / 1.2, or 33.3 percent, to that All items increase. Said another way, had food prices been unchanged for that year the change in the All items index would have been 1.2 percent minus 0.40, or 0.8 percent. Effects can be negative as well. For example, if the effect of food was a negative 0.1, and the All items index rose 0.5 percent, the All items index actually would have been 0.1 percent higher (or 0.6 percent) had food prices been unchanged. Since food prices fell while prices overall were rising, the contribution of food to the All items price change was negative (in this case, -0.1 / 0.5, or minus 20 percent).

² A statistic's margin of error is often expressed as its point estimate plus or minus two standard errors. For example, if a CPI category rose 2.6 percent, and its standard error was 0.25 percent, the margin of error on this item's 12-month percent change would be 2.6 percent, plus or minus 0.5 percent.

³ If the current 12-month percent change is greater than the previous published 12-month percent change, then this column identifies the closest prior month with a 12-month percent change as (L)arger as or (L)arger than the current 12-month change. If the current 12-month percent change is smaller than the previous published 12-month percent change, the most recent month with a change as (S)mall or (S)maller than the current month change is identified. If the current and previous published 12-month percent changes are equal, a dash will appear. Standard numerical comparison is used. For example, 2.0% is greater than 0.6%, -4.4% is less than -2.0%, and -2.0% is less than 0.0%. Note that a (L)arger change can be a smaller decline, for example, a -0.2% change is larger than a -0.4% change, but still represents a decline in the price index. Likewise, (S)maller changes can be increases, for example, a 0.6% change is smaller than 0.8%, but still represents an increase in the price index. In this context, a -0.2% change is considered to be smaller than a 0.0% change.

⁴ Indexes on a December 1997=100 base.

⁵ Special indexes based on a substantially smaller sample. These series do not contribute to the all items index aggregation and therefore do not have a relative importance or effect.

⁶ Indexes on a December 2007=100 base.

⁷ Indexes on a December 2005=100 base.

RESOLUTION NO. _____

A RESOLUTION UPDATING THE CITY FEE SCHEDULE BY: (1) SETTING THE WATER RATES FOR RESIDENTIAL AND COMMERCIAL USE, BOTH INSIDE AND OUTSIDE THE CITY LIMITS, PURSUANT TO SUBSECTIONS (a) AND (b), SECTION 26-26, ARTICLE II, CHAPTER 26 OF THE CITY CODE; AND (2) SETTING THE SANITARY SEWER RATES FOR RESIDENTIAL AND COMMERCIAL USE, BOTH INSIDE AND OUTSIDE THE CITY LIMITS, PURSUANT TO SUB-SECTIONS (b) AND (c), SECTION 26-27, ARTICLE II, CHAPTER 26 OF THE CODE OF THE CITY OF SHAWNEE.

WHEREAS, The City, through the passage of Ordinance No. 2599NS, has adopted a City Fee Schedule as a part of the Code of the City of Shawnee, Oklahoma that contains the description of various fees administered by the City;

WHEREAS, pursuant to Ordinance No. 2599NS, Subsequent versions, adoptions, and updates of the City Fee Schedule shall be accomplished by resolution of the City Commission;

WHEREAS, Part II, Chapter 26, Article II, Sections 26-26 provides for the setting, and updating, of municipal water rates from time to time by resolution of the City Commission, and that such rates shall be described in the City Fee Schedule;

WHEREAS, Part II, Chapter 26, Article II, Section 26-27 provides for the setting, and updating, of municipal sewer rates from time to time by resolution of the City Commission, and that such rates shall be described in the City Fee Schedule;

WHEREAS, the City Commission wishes to update the City Fee Schedule in a manner described below so as to set the municipal water rates pursuant to Section 26-26, and to set the municipal sewer rates pursuant to Section 26-27; and

WHEREAS, the City Commission wishes to update the City Fee Schedule in a manner described below so as to set the deposit for residential water service pursuant to Section 26-132(a).

NOW THEREFORE, BE IT RESOLVED BY THE MAYOR AND CITY COMMISSIONERS OF THE CITY OF SHAWNEE, OKLAHOMA:

Section 1. Sub-Section (a), Section 26-26, Article II, Chapter 26 of the Code of the City of Shawnee provides that: The minimum charge for water used by consumers inside the city limits shall be in amount described in the City Fee Schedule adopted and updated from time to time by resolution of the City Commission.

Accordingly, the water rates listed in the City Fee Schedule, pursuant to, and associated with, Sub-Section (a), Section 26-26, Article II, Chapter 26 of the Code of the City of Shawnee, are hereby updated to read as follows:

(a) Water Rates: The minimum charge for water used by consumers inside the city limits:

RESIDENTIAL

Number of Gallons	Monthly Rate Per Thousand Gallons
0—1,000	\$24.94
1,001—4,000	\$4.69
4,001—1,000,000	\$4.80
1,000,001—2,000,000	\$4.94
More than 2,000,000	\$5.05

COMMERCIAL

Number of Gallons	Monthly Rate Per Thousand Gallons
0—1,000	\$31.18
1,001—4,000	\$4.69
4,001—1,000,000	\$4.80
1,000,001—2,000,000	\$4.94
More than 2,000,000	\$5.05

COMMERCIAL – INSIDE COMPOUND METER

Number of Gallons	Monthly Rate Per Thousand Gallons
0—1,000	\$31.18
1,001—4,000	\$4.69
4,001—1,000,000	\$4.80
1,000,001—2,000,000	\$4.94
More than 2,000,000	\$5.05

Section 2. That Sub-Section (b), Section 26-26, Article II, Chapter 26 of the Code of the City of Shawnee provides that: The rate to be charged for furnishing water for consumption outside the city limits shall be in amount as described in the city fee schedule adopted and updated from time to time by resolution by commission.

Accordingly, the water rates listed in the City Fee Schedule, pursuant to, and associated with, Sub-Section (b), Section 26-26, Article II, Chapter 26 of the Code of the City of Shawnee, are hereby updated to read as follows:

- (b) Water Rates: The rate to be charged for furnishing water for consumption outside the city limits:

RESIDENTIAL

Number of Gallons	Monthly Rate Per Thousand Gallons
0—1,000	\$28.99
1,001—4,000	\$7.04
4,001—1,000,000	\$7.22
1,000,001—2,000,000	\$7.40
More than 2,000,000	\$7.58

COMMERCIAL

Number of Gallons	Monthly Rate Per Thousand Gallons
0—1,000	\$36.25
1,001—4,000	\$7.04
4,001—1,000,000	\$7.22
1,000,001—2,000,000	\$7.40
More than 2,000,000	\$7.58

Section 3. That Sub-Section (b), Section 26-27, Article II, Chapter 26 of the Code of the City of Shawnee provides that: The charge for sanitary sewer use by consumers inside the city limits shall be in an amount as described in the City Fee Schedule adopted and updated from time to time by resolution of the City Commission.

Accordingly, the sewer rates listed in the City Fee Schedule, pursuant to, and associated with, Sub-Section (b), Section 26-27, Article II, Chapter 26 of the Code of the City of Shawnee, are hereby updated to read as follows:

- (b) Sewer Rates: The charge for sanitary sewer use by consumers inside the city limits:

RESIDENTIAL

Number of Gallons	Monthly Rate Per Thousand Gallons
0—1,000	\$16.26
Over 1,000	\$3.60

COMMERCIAL

Number of Gallons	Monthly Rate Per Thousand Gallons
0—1,000	\$20.35
Over 1,000	\$3.50

Section 4. That Sub-Section (c), Section 26-27, Article II, Chapter 26 of the Code of the City of Shawnee provides that: The charge for sanitary sewer use by consumers outside the city limits shall be in an amount as described in the city fee schedule and updated from time to time by resolution of the city commission.

Accordingly, the rates listed in the City Fee Schedule, pursuant to, and associated with, Sub-Section (c), Section 26-27, Article II, Chapter 26 of the Code are hereby updated to read as follows:

(c) The rate to be charged for furnishing water for consumption outside the city limits:

RESIDENTIAL

Number of Gallons	Monthly Rate Per Thousand Gallons
0—1,000	\$24.41
Over 1,000	\$5.24

COMMERCIAL

Number of Gallons	Monthly Rate Per Thousand Gallons
0—1,000	\$30.50
Over 1,000	\$5.24

Section 5. Annual review of rates and possible increases. City Staff shall annually, no later than December 31 of each calendar year, review the Consumer Price Index (CPI) through the United States Bureau of Labor Statistics, to measure the average change over time in the prices paid by consumers for utility services. Increases of the above listed rates for both residential and commercial accounts may be amended per CPI as of December 31 of the calendar year. Said rate increases will take effect on July 1 of the following calendar year. A Resolution will be presented to the Commission to update the City Fee Schedule of any rate changes.

Section 6. Adoption and Update of City Fee Schedule. That attached hereto is the updated portion of the City Fee Schedule as created above (Exhibit “A”). This Resolution updates and changes City Fee Schedule only to the extent as described above. All other existing fees, fines, bonds, and insurance amounts described in the City Fee Schedule, not expressly updated herein, shall remain the same, and are otherwise re-adopted, for full force and effect, in the Code of the City of Shawnee.

Section 7. **Effective Date.** The effective date of the fee changes in this Resolution is July 1, 2023.

PASSED AND APPROVED this 20th day of March, 2023.

ED BOLT, MAYOR

ATTEST:

From: Lisa Lasyone, City Clerk
Subject: Confirm action taken by the City Commission on Agenda Item No. 8 with respect to a resolution updating the City Fee Schedule by setting the monthly rates and fees for solid waste services pursuant to Subsections (a), Section 23-38, Article II, Chapter 23 of the City Code.

Background: The City entered into a contract with Central Disposal for solid waste collection, recycling, and disposal services on July 1, 2020. In the Request for Production, Section 9.6.1 of the *General and Special Provisions for Solid Waste Collection, Recycling and Disposal Services*, states:

Fees which may be charged by the CONTRACTOR for the second and subsequent period of the contract will be adjusted upward or downward to reflect changes in the cost of operations, as reflected by fluctuations in the Consumer Price Index for All Urban Consumers: Water and Sewer and Trash Collection Services, as published by the U.S. Bureau of Labor Statistics. It is expressly understood and agreed that the maximum annual increase shall not exceed 3.5 percent (3.5%).

The Memorandum entered into between the City and Central Disposal on May 18, 2020, provides:

Thereafter, the Contract Rate shall be increased, yearly, in accordance with the percentage increase in the CPI ("Consumer Price Index") over the previous twelve (12) month period from 2020 (i.e. the difference, expressed as a percentage, between the value of the CPI in June, 2021, and the value of the CPI published in June, 2020). The new adjusted Contract Rate shall begin on July 1, of each year. If in any year the CPI decreases, the Contract Rate for that year shall remain flat (and shall not increase or decrease).

The City received a letter from Central Disposal, dated February 15, 2023, advising that they would exercise the right of the CPI clause at the rate of 3.5%, effective July 1, 2023.

Financial Impact: Estimated revenue of \$110,600 to Shawnee Municipal Authority Fund, Sanitation Service, 501-45030; estimated expense of \$81,700 from Shawnee Municipal Authority Fund, Utility Administration, Other Contractual Services, 501-5-1010-53390

Attachments: Central Disposal Letter, Bureau of Labor Statistics CPI , Sanitation Fees Resolution 2023, Exhibit A , Exhibit B

Staff Recommendation: Approval of the item

CENTRAL DISPOSAL

LOCALLY OWNED & OPERATED
Commercial • Residential • Roll-Off

February 15, 2023

Central Disposal, LLC plans to exercise the right of the CPI clause as stated on Page 14, Section 9.6.1 of the current Solid Waste Collection, Recycling and Disposal Services Request for Proposal dated March 2, 2020.

The Consumer Price Index referenced is the Consumer Price Index for All Urban Consumers: Water and Sewer and Trash Collection Services as published by the U.S. Bureau of Labor Statistics.

We are requesting an annual increase of 3.5% effective July 1, 2023. If you need additional information, do not hesitate to contact me.

Sincerely,

Jon-Mark Adcock
President
Central Hauling

CONSUMER PRICE INDEX – DECEMBER 2022

The Consumer Price Index for All Urban Consumers (CPI-U) declined 0.1 percent in December on a seasonally adjusted basis, after increasing 0.1 percent in November, the U.S. Bureau of Labor Statistics reported today. Over the last 12 months, the all items index increased 6.5 percent before seasonal adjustment.

The index for gasoline was by far the largest contributor to the monthly all items decrease, more than offsetting increases in shelter indexes. The food index increased 0.3 percent over the month with the food at home index rising 0.2 percent. The energy index decreased 4.5 percent over the month as the gasoline index declined; other major energy component indexes increased over the month.

The index for all items less food and energy rose 0.3 percent in December, after rising 0.2 percent in November. Indexes which increased in December include the shelter, household furnishings and operations, motor vehicle insurance, recreation, and apparel indexes. The indexes for used cars and trucks, and airline fares were among those that decreased over the month.

The all items index increased 6.5 percent for the 12 months ending December; this was the smallest 12-month increase since the period ending October 2021. The all items less food and energy index rose 5.7 percent over the last 12 months. The energy index increased 7.3 percent for the 12 months ending December, and the food index increased 10.4 percent over the last year; all of these increases were smaller than for the 12-month period ending November.

¹ Not seasonally adjusted.

Food

The food index increased 0.3 percent in December following a 0.5-percent increase in November. The food at home index rose 0.2 percent in December. Three of the six major grocery store food group indexes increased over the month. The index for meats, poultry, fish, and eggs increased 1.0 percent in December, as the index for eggs rose 11.1 percent. The index for other food at home rose 0.4 percent over the month, while the index for nonalcoholic beverages increased 0.1 percent in December.

In contrast, the fruits and vegetables index fell 0.6 percent over the month with the fresh fruit index declining 1.9 percent. The index for dairy and related products decreased 0.3 percent in December, and the index for cereals and bakery products was unchanged.

The food away from home index rose 0.4 percent in December, after increasing 0.5 percent in November. The index for limited service meals increased 0.5 percent over the month and the index for full service meals increased 0.1 percent.

The food at home index rose 11.8 percent over the last 12 months. The index for cereals and bakery products rose 16.1 percent over the year. The remaining major grocery store food groups posted increases ranging from 7.7 percent (meats, poultry, fish, and eggs) to 15.3 percent (dairy and related products).

The index for food away from home rose 8.3 percent over the last year. The index for full service meals rose 8.2 percent over the last 12 months, and the index for limited service meals rose 6.6 percent over the same period.

Energy

The energy index fell 4.5 percent in December after falling 1.6 percent in November. The gasoline index declined 9.4 percent over the month, following a 2.0-percent decrease in November. (Before seasonal adjustment, gasoline prices fell 12.5 percent in December.) The index for natural gas rose over the month, increasing 3.0 percent after decreasing 3.5 percent in November. The electricity index increased 1.0 percent in December.

The energy index rose 7.3 percent over the past 12 months. The gasoline index decreased 1.5 percent over the span. The fuel oil index rose 41.5 percent over the last 12 months, the index for electricity rose 14.3 percent, and the index for natural gas increased 19.3 percent over the same period.

All items less food and energy

The index for all items less food and energy rose 0.3 percent in December, following a 0.2-percent increase in November. The shelter index continued to increase, rising 0.8 percent over the month. The rent index rose 0.8 percent over the month, and the owners' equivalent rent index also rose 0.8 percent. The index for lodging away from home increased 1.5 percent in December, after falling 0.7 percent in November.

The shelter index was the dominant factor in the monthly increase in the index for all items less food and energy, while other components were a mix of increases and declines. Among the other indexes that rose in December was the index for household furnishings and operations, which increased 0.3 percent over the month, while the index for motor vehicle insurance rose 0.6 percent, and the index for

recreation increased 0.2 percent. The apparel index rose 0.5 percent in December, and the education index increased 0.3 percent.

The medical care index rose 0.1 percent in December, after declining in the previous 2 months. The index for hospital services increased 1.7 percent over the month. The physicians' services index and the prescription drugs index both rose 0.1 percent in December.

Indexes which declined over the month include the index for used cars and trucks, which fell 2.5 percent in December, the sixth consecutive decline in that index. The index for airline fares fell 3.1 percent over the month, following a 3.0-percent decrease in November. The new vehicles index declined 0.1 percent in December, as did the personal care index.

The index for all items less food and energy rose 5.7 percent over the past 12 months. The shelter index increased 7.5 percent over the last year, accounting for more than half of the total increase in all items less food and energy. Other indexes with notable increases over the last year include household furnishings and operations (+6.7 percent), medical care (+4.0 percent), new vehicles (+5.9 percent), and recreation (+5.1 percent).

Not seasonally adjusted CPI measures

The Consumer Price Index for All Urban Consumers (CPI-U) increased 6.5 percent over the last 12 months to an index level of 296.797 (1982-84=100). For the month, the index decreased 0.3 percent prior to seasonal adjustment.

The Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W) increased 6.3 percent over the last 12 months to an index level of 291.051 (1982-84=100). For the month, the index decreased 0.5 percent prior to seasonal adjustment.

The Chained Consumer Price Index for All Urban Consumers (C-CPI-U) increased 6.4 percent over the last 12 months. For the month, the index decreased 0.2 percent on a not seasonally adjusted basis. Please note that the indexes for the past 10 to 12 months are subject to revision.

The Consumer Price Index for January 2023 is scheduled to be released on Tuesday, February 14, 2023, at 8:30 a.m. (ET).

January 2023 Consumer Price Index Weight Update

Starting with January 2023 data, BLS plans to update weights annually for the Consumer Price Index based on a single calendar year of data, using consumer expenditure data from 2021. This reflects a change from prior practice of updating weights biennially using two years of expenditure data.

Technical Note

Brief Explanation of the CPI

The Consumer Price Index (CPI) measures the change in prices paid by consumers for goods and services. The CPI reflects spending patterns for each of two population groups: all urban consumers and urban wage earners and clerical workers. The all urban consumer group represents about 93 percent of the total U.S. population. It is based on the expenditures of almost all residents of urban or metropolitan areas, including professionals, the self-employed, the poor, the unemployed, and retired people, as well as urban wage earners and clerical workers. Not included in the CPI are the spending patterns of people living in rural nonmetropolitan areas, farming families, people in the Armed Forces, and those in institutions, such as prisons and mental hospitals. Consumer inflation for all urban consumers is measured by two indexes, namely, the Consumer Price Index for All Urban Consumers (CPI-U) and the Chained Consumer Price Index for All Urban Consumers (C-CPI-U).

The Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W) is based on the expenditures of households included in the CPI-U definition that meet two requirements: more than one-half of the household's income must come from clerical or wage occupations, and at least one of the household's earners must have been employed for at least 37 weeks during the previous 12 months. The CPI-W population represents about 29 percent of the total U.S. population and is a subset of the CPI-U population.

The CPIs are based on prices of food, clothing, shelter, fuels, transportation, doctors' and dentists' services, drugs, and other goods and services that people buy for day-to-day living. Prices are collected each month in 75 urban areas across the country from about 6,000 housing units and approximately 22,000 retail establishments (department stores, supermarkets, hospitals, filling stations, and other types of stores and service establishments). All taxes directly associated with the purchase and use of items are included in the index. Prices of fuels and a few other items are obtained every month in all 75 locations. Prices of most other commodities and services are collected every month in the three largest geographic areas and every other month in other areas. Prices of most goods and services are obtained by personal visit, telephone call, or web collection by the Bureau's trained representatives.

In calculating the index, price changes for the various items in each location are aggregated using weights, which represent their importance in the spending of the appropriate population group. Local data are then combined to obtain a U.S. city average. For the CPI-U and CPI-W, separate indexes are also published by size of city, by region of the country, for cross-classifications of regions and population-size classes, and for 23 selected local areas. Area indexes do not measure differences in the level of prices among cities; they only measure the average change in prices for each area since the base period. For the C-CPI-U, data are issued only at the national level. The CPI-U and CPI-W are considered final when released, but the C-CPI-U is issued in preliminary form and subject to three subsequent quarterly revisions.

The index measures price change from a designed reference date. For most of the CPI-U and the CPI-W, the reference base is 1982-84 equals 100. The reference base for the C-CPI-U is December 1999 equals 100. An increase of 7 percent from the reference base, for example, is shown as 107.000. Alternatively, that relationship can also be expressed as the price of a base period market basket of goods and services rising from \$100 to \$107.

Sampling Error in the CPI

The CPI is a statistical estimate that is subject to sampling error because it is based upon a sample of retail prices and not the complete universe of all prices. BLS calculates and publishes estimates of the 1-

month, 2-month, 6-month, and 12-month percent change standard errors annually for the CPI-U. These standard error estimates can be used to construct confidence intervals for hypothesis testing. For example, the estimated standard error of the 1-month percent change is 0.03 percent for the U.S. all items CPI. This means that if we repeatedly sample from the universe of all retail prices using the same methodology, and estimate a percentage change for each sample, then 95 percent of these estimates will be within 0.06 percent of the 1-month percentage change based on all retail prices. For example, for a 1-month change of 0.2 percent in the all items CPI-U, we are 95 percent confident that the actual percent change based on all retail prices would fall between 0.14 and 0.26 percent. For the latest data, including information on how to use the estimates of standard error, see www.bls.gov/cpi/tables/variance-estimates/home.htm.

Calculating Index Changes

Movements of the indexes from 1 month to another are usually expressed as percent changes rather than changes in index points, because index point changes are affected by the level of the index in relation to its base period, while percent changes are not. The following table shows an example of using index values to calculate percent changes:

	Item A	Item B	Item C
Year I	112.500	225.000	110.000
Year II	121.500	243.000	128.000
Change in index points	9.000	18.000	18.000
Percent change	$9.0/112.500 \times 100 = 8.0$	$18.0/225.000 \times 100 = 8.0$	$18.0/110.000 \times 100 = 16.4$

Use of Seasonally Adjusted and Unadjusted Data

The Consumer Price Index (CPI) produces both unadjusted and seasonally adjusted data. Seasonally adjusted data are computed using seasonal factors derived by the X-13ARIMA-SEATS seasonal adjustment method. These factors are updated each February, and the new factors are used to revise the previous 5 years of seasonally adjusted data. The factors are available at www.bls.gov/cpi/tables/seasonal-adjustment/seasonal-factors-2022.xlsx. For more information on data revision scheduling, please see the Factsheet on Seasonal Adjustment at www.bls.gov/cpi/seasonal-adjustment/questions-and-answers.htm and the Timeline of Seasonal Adjustment Methodological Changes at www.bls.gov/cpi/seasonal-adjustment/timeline-seasonal-adjustment-methodology-changes.htm.

For analyzing short-term price trends in the economy, seasonally adjusted changes are usually preferred since they eliminate the effect of changes that normally occur at the same time and in about the same magnitude every year—such as price movements resulting from weather events, production cycles, model changeovers, holidays, and sales. This allows data users to focus on changes that are not typical for the time of year. The unadjusted data are of primary interest to consumers concerned about the prices they actually pay. Unadjusted data are also used extensively for escalation purposes. Many collective bargaining contract agreements and pension plans, for example, tie compensation changes to the Consumer Price Index before adjustment for seasonal variation. BLS advises against the use of seasonally adjusted data in escalation agreements because seasonally adjusted series are revised annually.

Intervention Analysis

The Bureau of Labor Statistics uses intervention analysis seasonal adjustment (IASA) for some CPI series. Sometimes extreme values or sharp movements can distort the underlying seasonal pattern of price change. Intervention analysis seasonal adjustment is a process by which the distortions caused by such unusual events are estimated and removed from the data prior to calculation of seasonal factors. The resulting seasonal factors, which more accurately represent the seasonal pattern, are then applied to the unadjusted data.

For example, this procedure was used for the motor fuel series to offset the effects of the 2009 return to normal pricing after the worldwide economic downturn in 2008. Retaining this outlier data during seasonal factor calculation would distort the computation of the seasonal portion of the time series data for motor fuel, so it was estimated and removed from the data prior to seasonal adjustment. Following that, seasonal factors were calculated based on this “prior adjusted” data. These seasonal factors represent a clearer picture of the seasonal pattern in the data. The last step is for motor fuel seasonal factors to be applied to the unadjusted data.

For the seasonal factors introduced for January 2022, BLS adjusted 72 series using intervention analysis seasonal adjustment, including selected food and beverage items, motor fuels, electricity, and vehicles.

Revision of Seasonally Adjusted Indexes

Seasonally adjusted data, including the U.S. city average all items index levels, are subject to revision for up to 5 years after their original release. Every year, economists in the CPI calculate new seasonal factors for seasonally adjusted series and apply them to the last 5 years of data. Seasonally adjusted indexes beyond the last 5 years of data are considered to be final and not subject to revision. For January 2022, revised seasonal factors and seasonally adjusted indexes for 2017 to 2021 were calculated and published. For series which are directly adjusted using the Census X-13ARIMA-SEATS seasonal adjustment software, the seasonal factors for 2021 will be applied to data for 2022 to produce the seasonally adjusted 2022 indexes. Series which are indirectly seasonally adjusted by summing seasonally adjusted component series have seasonal factors which are derived and are therefore not available in advance.

Determining Seasonal Status

Each year the seasonal status of every series is reevaluated based upon certain statistical criteria. Using these criteria, BLS economists determine whether a series should change its status from "not seasonally adjusted" to "seasonally adjusted", or vice versa. If any of the 81 components of the U.S. city average all items index change their seasonal adjustment status from seasonally adjusted to not seasonally adjusted, not seasonally adjusted data will be used in the aggregation of the dependent series for the last 5 years, but the seasonally adjusted indexes before that period will not be changed. For 2022, 22 of the 81 components of the U.S. city average all items index are seasonally adjusted.

Contact Information

For additional information about the CPI visit www.bls.gov/cpi or contact the CPI Information and Analysis Section at 202-691-7000 or cpi_info@bls.gov.

For additional information on seasonal adjustment in the CPI visit www.bls.gov/cpi/seasonal-adjustment/home.htm or contact the CPI seasonal adjustment section at 202-691-6968 or cpiseas@bls.gov.

¹ Foods, fuels, and several other items are priced every month in all areas. Most other goods and services are priced as indicated: M - Every month.

1 - January, March, May, July, September, and November. 2 - February, April, June, August, October, and December.

² Regions defined as the four Census regions.

³ Indexes on a December 1996=100 base.

⁴ Indexes on a December 2017=100 base.

⁵ Indexes on a December 1986=100 base.

⁶ 1998 - 2017 indexes based on substantially smaller sample.

⁷ Indexes on a December 2001=100 base.

⁸ Indexes on a 1987=100 base.

NOTE: Local area indexes are byproducts of the national CPI program. Each local index has a smaller sample size than the national index and is, therefore, subject to substantially more sampling and other measurement error. As a result, local area indexes show greater volatility than the national index, although their long-term trends are similar. Therefore, the Bureau of Labor Statistics strongly urges users to consider adopting the national average CPI for use in their escalator clauses.

¹ The C-CPI-U is designed to be a closer approximation to a cost-of-living index in that it, in its final form, accounts for any substitution that consumers make across item categories in response to changes in relative prices. Since the expenditure data required for the calculation of the C-CPI-U are available only with a time lag, the C-CPI-U is issued first in preliminary form using the latest available expenditure data at that time and is subject to four revisions.

Indexes are issued as initial estimates. Indexes are revised each quarter with the publication of January, April, July, and October data as updated expenditure estimates become available. The C-CPI-U indexes are updated quarterly until they become final. January-March indexes are final in January of the following year; April-June indexes are final in April of the following year; July-September indexes are final in July of the following year; October-December indexes are final in October of the following year.

¹ The 'effect' of an item category is a measure of that item's contribution to the All items price change. For example, if the Food index had an effect of 0.40, and the All items index rose 1.2 percent, then the increase in food prices contributed 0.40 / 1.2, or 33.3 percent, to that All items increase. Said another way, had food prices been unchanged for that month the change in the All items index would have been 1.2 percent minus 0.40, or 0.8 percent. Effects can be negative as well. For example, if the effect of food was a negative 0.1, and the All items index rose 0.5 percent, the All items index actually would have been 0.1 percent higher (or 0.6 percent) had food prices been unchanged. Since food prices fell while prices overall were rising, the contribution of food to the All items price change was negative (in this case, -0.1 / 0.5, or minus 20 percent).

² A statistic's margin of error is often expressed as its point estimate plus or minus two standard errors. For example, if a CPI category rose 0.6 percent, and its standard error was 0.15 percent, the margin of error on this item's 1-month percent change would be 0.6 percent, plus or minus 0.3 percent.

³ If the current seasonally adjusted 1-month percent change is greater than the previous published 1-month percent change, then this column identifies the closest prior month with a 1-month percent change as (L)arge as or (L)arger than the current 1-month change. If the current 1-month percent change is smaller than the previous published 1-month percent change, the most recent month with a change as (S)mall or (S)maller than the current month change is identified. If the current and previous published 1-month percent changes are equal, a dash will appear. Standard numerical comparisons are used. For example, 0.8% is greater than 0.6%, -0.4% is less than -0.2%, and -0.2% is less than 0.0%. Note that a (L)arger change can be a smaller decline, for example, a -0.2% change is larger than a -0.4% change, but still represents a decline in the price index. Likewise, (S)maller changes can be increases, for example, a 0.6% change is smaller than 0.8%, but still represents an increase in the price index. In this context, a -0.2% change is considered to be smaller than a 0.0% change.

⁴ Not seasonally adjusted.

⁵ Indexes on a December 1997=100 base.

⁶ Special indexes based on a substantially smaller sample. These series do not contribute to the all items index aggregation and therefore do not have a relative importance or effect.

- ⁷ Indexes on a December 2007=100 base.
- ⁸ Indexes on a December 2005=100 base.
- ⁹ Indexes on a December 1986=100 base.
- ¹⁰ Indexes on a December 1993=100 base.

¹ The 'effect' of an item category is a measure of that item's contribution to the All items price change. For example, if the Food index had an effect of 0.40, and the All items index rose 1.2 percent, then the increase in food prices contributed 0.40 / 1.2, or 33.3 percent, to that All items increase. Said another way, had food prices been unchanged for that year the change in the All items index would have been 1.2 percent minus 0.40, or 0.8 percent. Effects can be negative as well. For example, if the effect of food was a negative 0.1, and the All items index rose 0.5 percent, the All items index actually would have been 0.1 percent higher (or 0.6 percent) had food prices been unchanged. Since food prices fell while prices overall were rising, the contribution of food to the All items price change was negative (in this case, -0.1 / 0.5, or minus 20 percent).

² A statistic's margin of error is often expressed as its point estimate plus or minus two standard errors. For example, if a CPI category rose 2.6 percent, and its standard error was 0.25 percent, the margin of error on this item's 12-month percent change would be 2.6 percent, plus or minus 0.5 percent.

³ If the current 12-month percent change is greater than the previous published 12-month percent change, then this column identifies the closest prior month with a 12-month percent change as (L)arger as or (L)arger than the current 12-month change. If the current 12-month percent change is smaller than the previous published 12-month percent change, the most recent month with a change as (S)mall or (S)maller than the current month change is identified. If the current and previous published 12-month percent changes are equal, a dash will appear. Standard numerical comparison is used. For example, 2.0% is greater than 0.6%, -4.4% is less than -2.0%, and -2.0% is less than 0.0%. Note that a (L)arger change can be a smaller decline, for example, a -0.2% change is larger than a -0.4% change, but still represents a decline in the price index. Likewise, (S)maller changes can be increases, for example, a 0.6% change is smaller than 0.8%, but still represents an increase in the price index. In this context, a -0.2% change is considered to be smaller than a 0.0% change.

⁴ Indexes on a December 1997=100 base.

⁵ Special indexes based on a substantially smaller sample. These series do not contribute to the all items index aggregation and therefore do not have a relative importance or effect.

¹⁵ Indexes on a December 1982=100 base.

¹⁶ Indexes on a December 1996=100 base.

¹⁷ Indexes on a December 1988=100 base.

RESOLUTION NO. _____

A RESOLUTION UPDATING THE CITY FEE SCHEDULE BY SETTING THE MONTHLY RATES AND FEES FOR SOLID WASTE SERVICES PURSUANT TO SUBSECTIONS (a), SECTION 23-38, ARTICLE II, CHAPTER 23 OF THE CITY CODE; AND PROVIDING FOR THE RE-ADOPTION OF THE CITY FEE SCHEDULE IN WHOLE.

WHEREAS, The City, through the passage of Ordinance No. 2599NS, has adopted a City Fee Schedule as a part of the Code of the City of Shawnee, Oklahoma that contains the description of various fees administered by the City;

WHEREAS, pursuant to Ordinance No. 2599NS, Subsequent versions, adoptions, and updates of the City Fee Schedule shall be accomplished by resolution of the City Commission;

WHEREAS, Part II, Chapter 23, Article II, Sections 23-38 provides for the setting and updating of monthly charges for the collection and removal of solid waste, adopted and updated by resolution of the City Commission, and that such rates shall be described in the City Fee Schedule;

WHEREAS, Section 9.6.1 of Modification to Unit Prices included in the General and Special Provisions for Solid Waste Collection, Recycling and Disposal Services contained with the Request for Proposals for the current Contract for Solid Waste Collection, Recycling and Disposal Services dated July 1, 2020 provides as follows

- 9.6.1 Fees which may be charged by the CONTRACTOR for the second and subsequent period of the contract will be adjusted upward or downward to reflect changes in the cost of operations, as reflected by fluctuations in the Consumer Price Index for All Urban Consumers: Water and Sewer and Trash Collection Services, as published by the U.S. Bureau of Labor Statistics. It is expressly understood and agreed that the maximum annual increase shall not exceed 3.5 percent (3.5%). At the end of the last day of the last month of each contract period, (the "Rate Modification Date") the fees will be increased or decreased for the ensuing contract period in a percentage amount equal to ninety percent (90%) of the net percentage change of the All Items Index, plus ten percent (10%) of the net percentage change of the Gasoline Index. All percentage changes are to be computed as the difference between the index value for the April reporting period for the prior year and the April reporting period of the contract period, divided by the index value for the previous year;

and

WHEREAS, Section 5 of the Memorandum of Understanding dated May 18, 2020, provides that the Contract Rate shall be increased, yearly, in accordance with the percentage increase in the Consumer Price Index over the previous twelve-month period from 2020 (i.e. the difference, expressed as a percentage, between the value of the CPI in June, 2021, and the value of the CPI published in June, 2020). The new adjusted Contract Rate shall begin on July 1, of each

year. If in any year the CPI decreases, the Contract Rate for that year shall remain flat (and shall not increase or decrease);

WHEREAS, a component of the Schedule of Quotes approved by the Contract for Solid Waste Collection, Recycling and Disposal Services dated July 1, 2020 provides for a monthly Hazardous Waste Collection Fee, said collection to be during the Spring Clean-Up. This component has not been previously included in the monthly charges to residential customers and City Commission wishes to update the rates to include the hazardous waste collection fee; and

WHEREAS, the City Commission wishes to update the City Fee Schedule in a manner described below so as to set monthly rates and fees for solid waste services pursuant to Section 23-38;

NOW THEREFORE, BE IT RESOLVED BY THE MAYOR AND CITY COMMISSIONERS OF THE CITY OF SHAWNEE, OKLAHOMA:

Section 1. Sub-Section (a), Section 23-28, Article II, Chapter 23 of the Code of the City of Shawnee provides that: Monthly charges shall be in an amount as described in the city fee schedule, adopted and updated by the City Commission from time to time.

Accordingly, the Solid Waste rates listed in the City Fee Schedule, pursuant to, and associated with, Sub-Section (a), Section 23-38, Article II, Chapter 23 of the Code of the City of Shawnee, are hereby updated to read as follows:

- (a) Solid Waste Rates: The monthly charge for solid waste service for consumers inside the city limits:

RESIDENTIAL

Type of Service	Monthly Rate
Small Polycart (65 gallon)	\$18.54
Large Polycart (95 gallon)	\$23.36
Additional Polycart (95 gallon)	\$11.79
Solid Waste Service Only	\$23.36

Section 2. **Annual review of rates and possible increases.** City Staff shall annually, no later than December 31 of each calendar year, review the Consumer Price Index (CPI) through the United States Bureau of Labor Statistics, to measure the average charge over time in the prices paid by consumers for solid waste collection and removal services. Increases of the above listed rates for residential accounts may be amended per CPI as of December 31 of the calendar year. Said rate increases will take effect on July 1 of the following calendar year. A Resolution will be presented to the Commission to update the City Fee Schedule of any rate changes.

Section 3. **Adoption and Update of City Fee Schedule.** That attached hereto is the updated portion of the City Fee Schedule as created above (Exhibit 'A') and the updated City Fee Schedule

in whole (Exhibit 'B'). This Resolution updates and changes City Fee Schedule only to the extent as described above. All other existing fees, fines, bonds, and insurance amounts described in the City Fee Schedule, not expressly updated herein, shall remain the same, and are otherwise re-adopted, for full force and effect, in the Code of the City of Shawnee.

Section 4. **Effective Date.** The effective date of the fee changes in this Resolution is July 1, 2023.

PASSED AND APPROVED this 20th day of March, 2023.

ED BOLT, MAYOR

Public Works Department
111 S. Kickapoo St.
Shawnee, OK 74801
ShawneeOK.org

Date: March 20, 2023
To: Shawnee Municipal Authority
From: Brad Schmidt, Public Works Director
Subject: Consideration of a Sponsorship Agreement between the Shawnee Municipal Authority and the Pottawatomie County Development Authority (PCDA).

Background: The Shawnee Municipal Authority (SMA) had previously applied for and was awarded a Clean Water State Revolving Fund (CWSRF) loan. As part of the loan agreement, the SMA also requested to sponsor the nonpoint source Pottawatomie County Development Authority (PCDA) Wetland Project.

The PCDA has expressed interest in implementing this proposed project. So as to outline roles, responsibilities, and requirements, the PCDA as implementer and the SMA as sponsor have jointly developed the attached sponsorship agreement.

City staff requests that the City Manager be authorized to sign the sponsorship agreement in her capacity as the Shawnee Municipal Authority's General Manager.

Financial Impact: None

Attachments: Sponsorship Agreement

Staff Recommendation: Approval of the item

OKLAHOMA WATER RESOURCES BOARD CLEAN WATER STATE REVOLVING
FUND LOAN ACCOUNT
CWSRF SPONSOR PROGRAM
SPONSORSHIP AGREEMENT

by and between the
Pottawatomie County Development Authority (Implementer)
and the
Shawnee Municipal Authority (Sponsor)
for the
PCDA Wetland PROJECT

Whereas, the State of Oklahoma has created the Clean Water State Revolving Fund Loan Account (the "CWSRF") pursuant to 82 O.S. §1085.51 et seq., to provide financial assistance for wastewater projects related to the Clean Water State Revolving Fund Program; and,

Whereas, the Oklahoma Water Resources Board (the "OWRB") has created the Clean Water State Revolving Fund Sponsorship Program (the "Sponsorship Program") within the Clean Water State Revolving Fund for nonpoint source projects; and

Whereas, an applicant applying for a CWSRF Loan may also sponsor a qualifying nonpoint source projects to be undertaken by itself, or by an entity with the ability to implement the nonpoint source project; and

Whereas, the Shawnee Municipal Authority (the "Sponsor") has applied for CWSRF funding for Wastewater Treatment System Improvements and has also requested to sponsor the nonpoint source project PCDA Wetland Project (the "Project"); and

Whereas, Pottawatomie County Development Authority (the "Implementer") has agreed to undertake the implementation of the Project as approved under the Oklahoma's Nonpoint Source Management Program Plan (the "Plan"); and

Whereas, the Implementer and Sponsor will enter into an agreement that provides more specific roles and responsibilities for each party in order to complete the project. This agreement includes but is not limited to providing the Implementer authority to enter into contracts, engage an engineer, and other service providers as needed, and the Sponsor authority to review the project as necessary. This agreement shall be referenced as the Guidance document, and roles and responsibilities are listed in Exhibit A.

Whereas, the Sponsor and the Implementer have a common purpose of completing the Project in accordance with the Plan to protect and improve water resources within the State of Oklahoma; and

Therefore, the Sponsor and the Implementer agree to be bound by the terms and conditions of the Sponsorship Agreement.

SECTION I. General Provisions

Pursuant to the intent of the CWSRF, the Sponsor and the Implementer agree that the essence of this agreement is for the parties to carry out their respective responsibilities in perpetuity for the planning, implementation, management, preservation, and maintenance of the Sponsorship Project and its associated water resources in accordance with the Plan, the project description as approved under the Plan, and the Guidance Document.

The parties acknowledge that, if the OWRB determines that there is a failure to implement the Plan or conform to the provisions of the Guidance Document it shall provide the Implementer and the Sponsor with written notice of such failure. If the project is not able to be completed successfully, then the Sponsor may choose to deobligate the sponsorship funds, find a new project eligible for sponsorship funds, or use the funds for another eligible CWSRF project at a loan interest rate according to the Loan Agreement. The Sponsor will notify the OWRB of its decision and work with the OWRB staff to implement the change.

SECTION II. Project Payment Requests and Disbursements

All requests for disbursement of funds for eligible expenses to implement the Project shall be submitted on the ORF-271 disbursement request form provided by the OWRB. The Implementer and the Sponsor agree to review and sign all disbursement requests to ensure they are appropriate expenses within the scope of the Project.

Disbursement requests shall first be reviewed and approved by the Implementer, which shall then submit them to the Sponsor. The Sponsor shall review and, if found satisfactory, approve the disbursement requests and submit them to the OWRB Financial Assistance Division with a completed copy of the ORF-271 and supporting invoices and documentation of expenses. The OWRB will review and approve disbursement requests for eligibility based on the CWSRF Loan Agreement between the Sponsor and the OWRB. Disbursements will be made from the OWRB to the Sponsor. The Sponsor shall then be responsible to disburse the applicable funds to the Implementer.

SECTION III. The Project Schedule

The Implementer agrees that it shall not begin implementation of the Project prior to the completion of all necessary approvals by the OWRB and the execution of the CWSRF Loan Agreement by all parties, or alternatively, prior to the notification of approval from OWRB to do so. All actions to implement the Project that are called for under the CWSRF Loan Agreement or in the Guidance Document shall be completed by October 1, 2025, unless both parties agree to change the date with the written approval of OWRB.

SECTION IV. Obligation to Protect and Maintain the Project

The Sponsor and the Implementer recognize the value of the area associated with the Project as a valuable drinking water supply. Upon completion the Project will contribute to the integrity of the water quality within the aqua body. The parties agree that the Plan and the Guidance Document constitute the basis for subsequent actions by the Implementer under this Agreement

and are incorporated by reference. The Sponsor and the Implementer agree that the perpetual preservation and maintenance of the Project shall be the sole legal and financial responsibility of the Implementer.

SECTION V: Amendment

The parties mutually agree that, subject to and upon the mutual written consent and approval of both parties, this Agreement may be amended or modified at any time.

SECTION VI. Independent of Parties

The Sponsor and the Implementer are independent parties and neither of the parties shall be considered an agent for the other party.

SECTION VII. Termination

The Sponsor and the Implementer shall work together under this Agreement to complete the Project in accordance with the Guidance Document. However, this Agreement may be terminated at any time by either party upon 30 days written notice to the other party and OWRB.

SECTION VIII. Notice

Any document required by this Agreement shall be submitted to:

Sponsor
