WOOD FOLDING BANQUET TABLES

[Rounds](#)[Rectangle](#)[Squares](#)[Other](#)[Heavy Duty Birchwood](#)

Wood folding banquet tables are a staple among party rental companies, hotels and event venues. Professionals prefer wood folding tables because they're easy to repair if necessary, easy to find linens and skirting for, and they're available in a large variety of shapes and sizes. Our commercial-grade wood folding tables feature bolt-through leg assembly to ensure years of use. Shop our wide variety of sizes and shapes to offer your clients or guests creative event layouts.

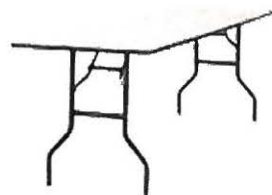

Free Shipping on most tables! Order 10 or more of one table and get free shipping. Or, mix and match sizes or combine with chairs for free shipping on orders over \$2000.

Surface is formed from high-impact ABS plastic and is permanently bonded to the internal wood laminate core. A variety of smooth and textured finishes are available.

UNDERSURFACE

Bottom of table is formed from high-impact ABS plastic and is permanently bonded to the internal wood laminate core and hard wood frame. (Gray undersurface shown.)

INTERNAL WOOD CORE

A 0.10"-0.14" [2.5mm - 3.6mm] thick wood laminate layer is permanently bonded to both top and bottom ABS plastic. Laminate core keeps table flat and provides a moderate heat shield.

WOOD FRAME

An internal hardwood frame is constructed of runners and cross members for additional strength, stability, and performance. The amount of wood varies depending on the size of the table.

TABLE EDGE

Round tables are equipped with Mity-Edge, which lasts 3X longer than leading competitors'. It is made of ABS plastic and is bonded to the entire interior perimeter of the table. A finished bumper is also chemically welded to the exterior perimeter of the table, creating a moisture-resistant barrier. This bumper also accepts standard skirting clips.

FRAME

Frame & legs are constructed of steel. Steel is powdered coated to increase durability & is scratch resistant.

TABLE LEGS

Reinforced wishbone legs are welded to the cross and top bars. Legs are 29" to 30" with nylon or steel closures for floor protection. Legs fold and lock with a gravity-operated steel ring. Folding mechanism consists of 2 Z-bars and a U-channel.

LEG ASSEMBLIES

Leg assemblies are mounted to the internal wood frame using steel clamps. Clamps, folding mechanism, and brackets are secured into "T-Nut" type fasteners. "T-Nut" fasteners are pressed into frame and have anti-spin prongs.

ALPHADECKSTAGING

The premier source for modular raised flooring systems

PRODUCT SPECIFICATIONS - ALPHADECK

Description:	AlphaDeck is a durable, versatile, and affordable modular staging / raised flooring system.		
Frame Material:	Galvanized steel frame, powder-coated black.		
Surface Material:	Standard gray plywood offers a durable, non-slip surface ideal for indoor or outdoor use and can be easily customized with carpet or rolled vinyl to match any event or facility.		
Extension Leg Material:	Galvanized Steel		
Component	Component	Size	Weight
Sizes and Weights:	Empty Deck	2'x4'x 5-7/8"	37.5 lbs
		4'x4'x 5-7/8"	51 lbs
	Plywood Surface	2'x4'	13.5 lbs
		4'x4'	27 lbs
	Short Adjustable Foot	4"	1.25 lbs
	Long Adjustable Foot	10"	1.7 lbs
	Extension Legs	6" - 48"	1-6.8 lbs
Weight Bearing:	4,100 lbs distributed load		
Connection System:	Decks connect seamlessly to each other with sturdy metal cam-lock system. Optional telescoping extension legs connect to frame using locking snap pin and notch system.		
Available Accessories:	Adjustable Rubber Feet, Telescoping Legs, T-Handle Wrench, Stairs, Ramps, Guard Rails, Guard Tubes, Side Skirting.		
Warranty:	3-year warranty against manufacturer's defects.

Dual-Height Staging

Modular and height adjustable staging for medium to large applications

Dual-Height Staging

- Simple height adjustable, modular design based on the concept of the "folding leg tables".
- Platforms come in a 4ft x 8ft and are available in fixed and adjustable heights: 8", 16" or 24" and 24" or 32"
- Available in **Black Industrial Finish** and **Gray Carpet Finish**.
- Fast easy set-up by 2 people.
- Perfect for schools, churches, hotels, exhibition halls and many other applications.
- For use mostly indoors and should be installed on a flat surface.
- Strong metal box frame construction around platform perimeter.
- Box frame provides a wide grip for easy carrying, assembly and tear down.
- Folding legs are directly secured to the box frame.
- Legs lock firmly in place.
- Some platforms are height adjustable ± 8 inches.
- Platform surface has a seamless, smooth, no-trip design with dancers and performers in mind.
- Platforms weigh 145lbs, almost 10% lighter than similar competitors stages.
- Platform-to-Platform mounting mechanisms can be removed for a clean, smooth front edge, perfect for attaching skirts and chair-stops.
- Optional accessories such as **stage skirts**, **transportation trolleys**, **guardrails**, **chair stops**, **stage back drops**, **stage ramps** and **stairs** are available.

Durable Lightweight Tables & Chairs

Mity-Lite Mobile Staging™

Durable, Stable, Simple

Built for rigorous daily use from oversized steel tubing and high-grade aluminum, Mity-Lite Mobile Staging can support more weight than typical risers and provides a stable, wobble-free platform. Mity-Lite's versatile, self-contained mobile stage can support 4,000 lbs yet is simple enough for one-person setup and takedown. The innovative cantilever design ensures safe and easy setup, has a low profile for better visibility during transport, and its low center of gravity helps prevent tipping. Save time, cut costs, and never purchase separate decks, legs, tools, or carts again.

Features & Benefits

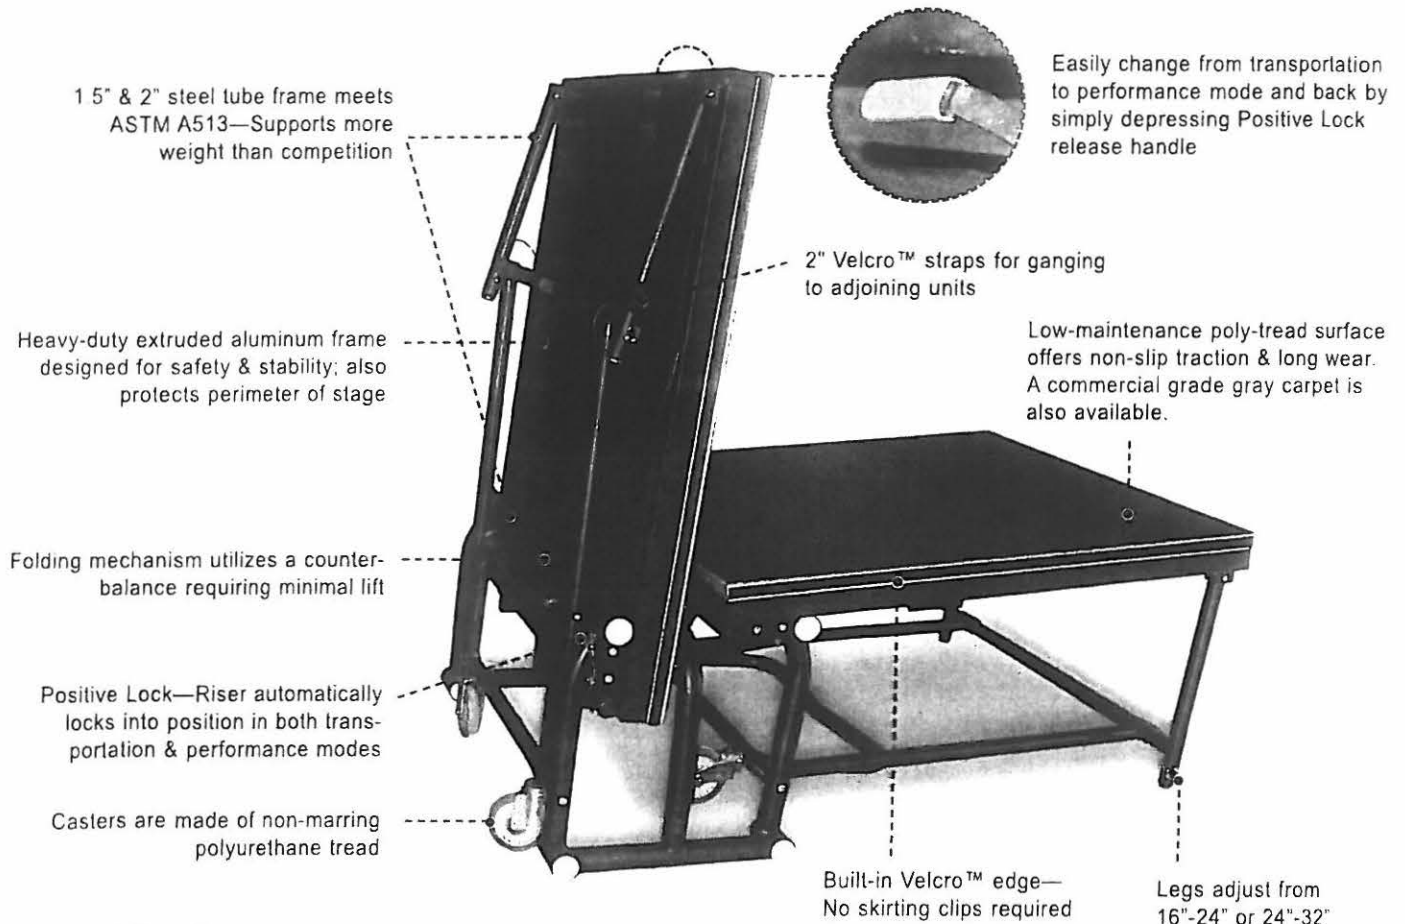

- Quality construction for rigorous commercial use—Supports 4,000 lbs
- Save time & labor—Setup in under 30 seconds by one person
- Easy setup—Innovative cantilever design reduces risk of back strain & lowers liability
- Safely transported—Low profile for better visibility & low center of gravity to prevent tipping
- No assembly required—All parts connected to the frame so nothing gets lost or damaged
- Positive Lock—Automatically locks decks in place during use & transport
- Longer useful life & level deck alignment—Nylon bushings at pivot points prevent unnecessary wear
- ADA-compliant components available
- 3-year warranty
- Made in the USA

6' x 8' stage	96" (244cm)	72" (183cm)	20" x 62 5" (51cm x 159cm)	24"-32" (61-81cm)	383lbs (174kg)	73" x 21" x 76" (185cm x 53cm x 193cm)

Fast and Easy Setup

Safe and stable in less than 30 seconds by 1 person

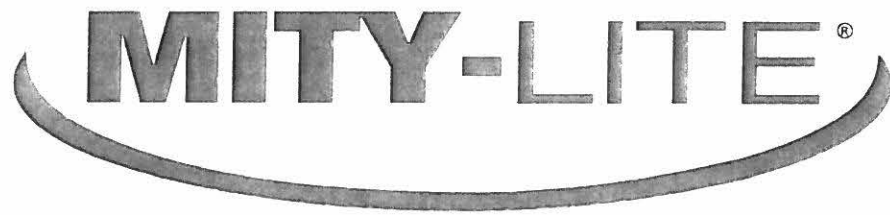

Standard Height:

1. Roll stage into position
2. Depress positive lock release handle & pull top edge down toward floor
3. Repeat for opposing side

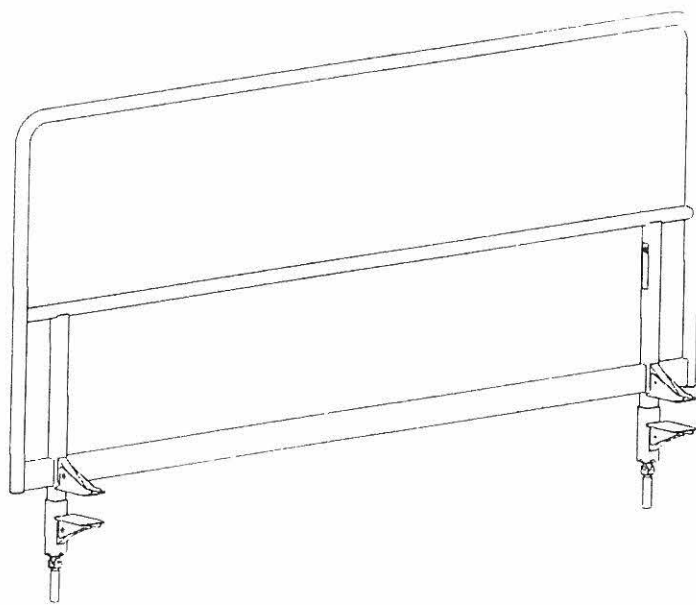

Maximum height:

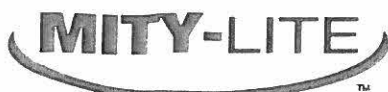

1. Adjust outside legs to tall position
2. Unfold interior leg to tall position
3. Repeat Std Height steps 2 & 3

Deck: Constructed of a steel tube frame and a 5/8" exterior-grade, solid core fir plywood with 6005 aluminum alloy edge protection. The edge protection is no wider than 1/8" around the perimeter of each deck. All-steel tube in the chassis meets ASTM A513 specifications and all-steel components are finished with a black powder-coat finish. Nylon bushings are also utilized to protect against cracks forming between the decks due to uneven surfaces. Casters are made of non-marring polyurethane tread locked to a polyolefin core and rated for 300-pound load. All threaded hardware is zinc plated.

Surface: Black low-maintenance polytread (slip-resistant polypropylene) or a commercial-grade polyolefin carpet in gray.

Folding Mechanism: A counterbalance is used in the folding mechanism requiring minimal lift to open and close the stage. In transportation mode the product has a low center of gravity, allowing the operator to see over the deck during transport. The deck also automatically locks into position to avoid an unexpected opening while moving to and from storage.

Positive Lock: The deck automatically locks in position in both the transportation and performance modes.

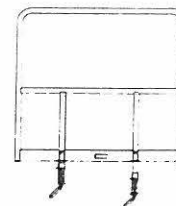

Ganging: Each frame has two 17" long nylon straps to connect to adjoining decks. The straps are made of 2" nylon webbing and are fastened with hook-and-loop Velcro™.

Stairs (optional): Casters are strategically placed on one side of stairs for easy transportation but are not used while in performance mode. The stair tread is 12" deep and 36" wide and is coated with a black, non-skid polymeric resin. No tools required for set-up or takedown.

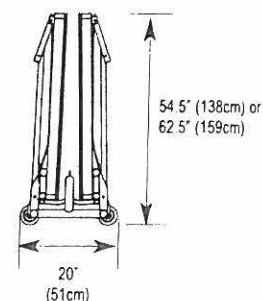

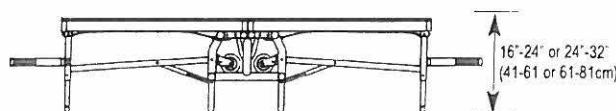

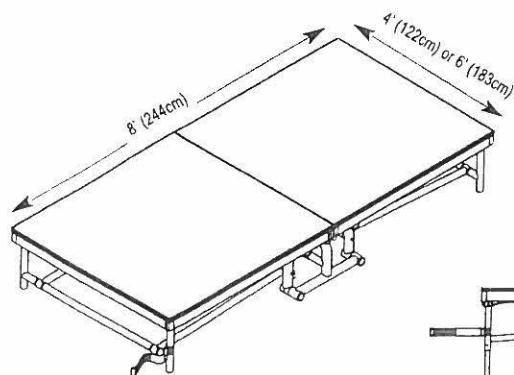

Stairs

Guardrails (optional): Made of tubular steel measuring 42" in height. Lower bar that serves as a chair stop. The Guardrail is attached by using grippers that pinch onto the top and bottom of the deck. No tools required for set-up or takedown.

Guardrails

Warranty: Mity-Lite Mobile Staging™ is warranted to be free from manufacturer defects in materials and workmanship under normal use, service, and handling for a period of three (3) years from the date of purchase.
