AGENDA

Zoning Board of Adjustment -- City of Shawnee, OK **Special Meeting**

Commission Chambers of City Hall, 16 W. 9th Street
Tuesday, November 23, 2021 at **3:30 P.M.**

- 1) **Call to Order**
- 2) **Roll Call**
- 3) **Public Hearings**
 - Public hearing and consideration of an application for a **Variance** at property located at 2130 W. Benedict Street. Request for a variance from the 175' minimum distance between driveways requirement for property zoned in A-1 (Rural Agricultural District).
Case No. **ZBOA04-21**, Applicant: Freddie White
(Deferred from November 18, 2021 ZBOA meeting.)
- 4) **Adjournment**

Zoning Board of Adjustment – 11.18.2021 – City of Shawnee, Oklahoma

Staff Report – ZBOA04-21– Variance for Distance Between Driveways – 2130 W. Benedict St.

To: Shawnee Zoning Board of Adjustment

From: Rachel Clyne, City Planner

Date: November 9, 2021

Subject: ZBOA04-21 – Request for a **Variance** from the 75' minimum distance between driveways requirement, Shawnee, Oklahoma

It is requested that the following information be given formal consideration by the Shawnee Zoning Board of Adjustment at its regular meeting of November 18, 2021.

Background

The subject property is located at 2130 W. Benedict Street and is zoned A-1 (Rural Agricultural District). On the 20-acre property, the applicant has recently constructed a single-family residential structure and an accessory building. Before these improvements were made by the applicant, the land was undeveloped but for three (3) accessory structures that were considerably set back (north) from the road (West Benedict Street) and two (2) driveways. Both driveways were paved but have aged and are in disrepair. During the building permitting and inspections process, the applicant was advised by the building inspections staff that only one (1) driveway would be allowed. It is staff's understanding was that the driveway to the west would not be utilized or resurfaced.

The new house and new accessory building were constructed on both sides (east and west) of the east existing driveway. The building inspections staff noticed that concrete was being poured in front (south) of the accessory structure. The building inspections staff advised the applicant not to pour any closer to the street (Benedict) because driveways must be separated in distance by specific number of feet. It is staff's understanding that despite the warning of violation, the paving would be extended to the road (Benedict) and become a driveway. The Building Inspector, Kevin Moore, advised that such action was "*at your own risk*" because it was not in compliance with the Zoning Code. When queried about future consequences, Mr. Moore advised that a variance may be possible but was not guaranteed.

The applicant approached Planning staff to discuss a variance for a reduction in the requirement of the 75' separation between driveways for his property located at 2130 W. Benedict Street. Upon receipt of the application and supporting documents, a notice of a public hearing was published in the newspaper, and notices of a public hearing were mailed to property owners within 300' of the subject property.

Discussion

The Shawnee Zoning Code includes the City's Subdivision Regulations. From those regulations, in **Section 40.2.1 Streets – General Requirements, Table 3 -- Minimum Separation of Driveways**, the distance required between driveways is based upon the type of street. The three (3) street types are Major Arterial, Minor Arterial, and Collector. The coordinating distances are 175', 150', and 75'. According to the 2040 Comprehensive Plan, **FIGURE 4.1: Potential Connectivity Plan - City Core**, West Benedict Street is identified as a *Collector*, which requires a minimum of 75' separation between driveways.

The distance between the west driveway and the accessory building (new) driveway is negligible. As a goodwill gesture, staff agreed to remove the west driveway from the calculations. The "new" driveway serving the accessory building is approximately 30' with a five-foot (5') radius on each side, which equals approximately 40' in width. The distance from the eastern edge of the "new" driveway to the western edge of the existing "house" driveway is approximately fifteen-feet (15').

With the minimum separation requirement of 75', this request is for a variance approximately 60' of separation.

Variances

To better understand variances, several questions are asked and answered below.

What is a variance?

A variance is permission granted by the Zoning Board of Adjustment (ZBOA) to waive or alter a requirement of the zoning ordinance.

The Zoning Board of Adjustment can adjust the standards of the zoning ordinance where exceptional and extraordinary circumstances apply to a property. This exceptional and extraordinary circumstance is known as a hardship. The ZBOA can vary the strict application of height, area, setback, yard, parking, or density requirements of the zoning ordinance.

When could a variance be granted?

A variance is granted when a hardship associated with a property is preventing the property from meeting the requirements of the zoning ordinance.

Zoning Codes are intended to preserve and protect property uses and values, and to promote health and general welfare. These provisions should be universally applied. However, sometimes there are extraordinary conditions at a particular property. A variance can be granted after an analysis focused on particular conditions and circumstances of a specific property.

For example, it must be demonstrated to the ZBOA that the applicant is seeking a property right that is generally enjoyed by other property owners in the same zoning district, not some additional privilege not generally enjoyed by others in the area.

What is a hardship?

When conditions of a property are significantly different to other properties in the area.

Special conditions can involve the size, shape, topography or general location. There is a physical constraint which is unique to a property. Special circumstances are not interpreted to be something

intangible, such as lack of knowledge of the code or misinformation at the time of purchase or construction. A hardship is a characteristic of the property, not the person.

What is not a hardship?

1. Economic hardships. For example, adding more units to a building than allowed can generate more income and make the project more economically feasible.
2. Conditions that are created as a result of action by the applicant or owner and not as a result of the land.

Can the ZBOA attach any special conditions or stipulations to a variance?

Yes. The ZBOA may offer reasonable and appropriate conditions or stipulations which will assure that the use of the property will be compatible with surrounding properties and will not alter the essential character of the neighborhood.

What information will the ZBOA consider in reviewing a variance request?

Applicants should present the ZBOA with evidence to establish findings on which a decision can be based. Evidence should relate only to the property, structure, or use proposed. Evidence concerning a person's health, age, family conditions, desires, or other personal needs are not sufficient on their own merits to justify granting of a variance.

In accord with Oklahoma Statute **11 O.S. 44-107, Section 22-571** of the Shawnee Zoning Code, the Zoning Board of Adjustment (ZBOA) may approve variances only after determining that certain conditions exist.

- 1) The application of the code to the particular piece of property would create an unnecessary hardship;
- 2) Such conditions are peculiar to the particular piece of property involved;
- 3) Relief, if granted, would not cause substantial detriment to the public good, or impair the purposes and intent of the code or the comprehensive plan; and
- 4) The variance, if granted, would be the minimum necessary to alleviate the unnecessary hardship.

Relating to the four (4) conditions for granting a variance, staff's comments are:

- 1) Requiring 75' distance between driveways on this property creates a hardship. Staff defines unnecessary hardship as: circumstance where special conditions, which were not self-created, affect a particular property and make strict conformity with restrictions governing area, setbacks, frontage, height or density unnecessarily burdensome or unreasonable considering the purposes of the Zoning Code.
- 2) Along West Benedict Street from Leo Avenue to the North Canadian River there is one property that has with two driveways for a single parcel. A gated parcel of approximately 25-acres located west of the subject property has semi-circle drive outside of the gate. The remaining properties have one driveway per parcel.

The distances between driveways varies from hundreds of feet to 30'. Some driveways are side by side, which serve two closely placed residences. The land toward Leo Avenue is typically parcels between 1.5 – 2-acres of land. The smaller tracts of land seemingly have driveways

closer to another. Many of the properties along that section of W. Benedict St have single-family homes and one or more accessory buildings. The larger parcels are toward the west, and they range in size from 4 – 6-acres to 25-acre parcels

- 3) Granting the variance would not cause substantial detriment to the public good; however, there is a safety concern should the property be developed, sold, or rezoned in the future. Staff currently does not anticipate a traffic problem with two vehicles leaving from each driveway at the same time without awareness of each other. The purposes and intent of the code or the comprehensive plan would be impaired if the variance is granted. The City adopted the Zoning Code and Comprehensive Plan to establish, maintain, and enforce regulations to protect the health, safety, and welfare of the community.
- 4) If the variance were approved, it would be the “easiest” way to alleviate an unnecessary hardship. Staff finds this hardship to be self-created, so the granting of a variance is not an option.

Contextual

Section 22-572 of the Zoning Code indicates that burden of truth is on applicant(s) seeking a variance.

This is that an unnecessary hardship exists and that granting the variance is necessary to relieve the unnecessary hardship. In granting a variance, the ZBOA may make appropriate conditions or safeguards and may require a bond or other guarantee necessary to enforce compliance with the conditions and safeguards. The ZBOA is tasked with analyzing the facts surrounding the request with a focus on evidence related only to the property, structure, or use proposed.

The applicant was given a TCO (Temporary Certificate of Occupancy) to reside in the house pending application for a variance. If the variance is denied, the applicant must redesign and alter of one or both driveways to become compliant with the Zoning Code and adopted Building Codes. The applicant should be advised that additional permits may be required prior to demo and construction. Standard inspections will be conducted and passed before the City issues a Certificate of Occupancy for the property located at 2130 W. Benedict Street in Shawnee, Oklahoma.

Recommendation

Staff recommends **Denial** by the Zoning Board of Adjustment for **ZBOA04-21** for a **Variance** which reduces the minimum separation between driveways from 75' to 15'.

NOTICE OF A PUBLIC HEARING

City Of Shawnee, Oklahoma

Case #ZBOA04-21

In accordance with 11 O.S. 44-108 and City of Shawnee Zoning Code Sec. 22-573, requests for VARIANCES require notification of a PUBLIC HEARING.

Case number ZBOA04-21 is for a **variance to the minimum of 175' separating driveways**

The property is located at **2130 W. Benedict St., Shawnee, OK.**

Current zoning is **A-1 (Rural Agricultural District).**

Proposed zoning is **no change**

Applicant is **Freddie White.**

The public hearings for **ZBOA04-21** will be held in the City Commission Chambers in City Hall, 16 W. 9th St. Shawnee, Oklahoma, as follows:

November 18, 2021 at 2:30 p.m. City of Shawnee Zoning Board of Adjustment meeting

Attendance at the public hearing is not mandatory but all interested parties are encouraged to attend. Questions about the application are directed to the City of Shawnee Planning Department at 405-878-1616. A copy of the application is available for public inspection during normal working hours in the Planning Office/Annex Building located at 222 N. Broadway

Presented for post and publication on October 21, 2021, by Rachel Clyne, City Planner.
